The Purple Foot is pleased to send you its latest catalog of Wine and Beer making Supplies and Equipment.

We believe that it lists most of the things that both the beginner and experienced wine and beer maker needs, but it does not contain everything sold in our store. As in any expanding business, new and improved items are steadily coming on the market. Therefore, if you do not see an item in this catalog please write, E-mail, FAX or call us and ask if it obtainable. We have many sources of supply available to us and thus can fill most needs.

According to Federal Law as amended, any adult may now make 100 gallons of wine and 100 gallons of beer each year without payment of a tax or registration. Any household of two or more may make up to 200 gallons of wine or 200 gallons of beer.

The pleasures of making wine and beer at home can not be overstated. It is a very important part of the culinary arts. In the past home wine and beer making have been more or less hit or miss, by luck or by gosh, with results that have nearly reflected that type of approach. This needn't be in today's world of advanced knowledge and technology.

If you have any questions or problems related to wine or beer making please contact us. We have over 35 years of experience and we will do our best to help you every step of the way.

So, get your feet wet, learn the burgundy two-step and keep things in a ferment.

P.S. We try to ship next day!!!
